Reinforcement for Mastopexy Augmentation

Patient Information
For many women, feeling good about their breasts is an important part of their self-image. Factors such as pregnancy, breastfeeding, and simply the passing of time can cause weakening and stretching of the breast tissue.

Discuss the use of Strattice™ Reconstructive Tissue Matrix (TM) for reinforcement in mastopexy augmentation procedures with your plastic surgeon.

Please review important patient information on the back of this brochure. Discuss potential risks and benefits of Strattice™ Tissue Matrix with your doctor.
A TOOL TO ASSIST IN MASTOPEXY AUGMENTATION

Mastopexy augmentation is a surgical procedure to raise and reshape sagging breasts.

In some patients, natural conditions such as relaxed skin elasticity and thin tissue can pose special challenges to surgeons.

Strattice™ helps the surgeon to support the breast pocket and hold the breast in the desired location.
THE BEAUTY LIES IN THE SUPPORT STRATTICE™ TM PROVIDES

Since 2003, LifeCell™ products have been successfully used in breast reconstruction following mastectomy in cancer patients. LifeCell™ Tissue Matrices have been used to treat surgical, trauma and burn patients for over ten years.

**STRATTICE™ RECONSTRUCTIVE TISSUE MATRIX**

is a soft, natural product from LifeCell™ that is designed to reinforce weak tissue. Sterile and pliable, Strattice™ TM is derived from porcine tissue, which has been used for many years in the U.S. in the repair and replacement of damaged tissues such as heart valves.

**STRATTICE™ RECONSTRUCTIVE TISSUE MATRIX**

helps to reinforce and repair tissue in revision breast augmentation and breast lift with augmentation, known as “mastopexy augmentation.”

Increasingly, plastic surgeons are using Strattice™ Tissue Matrix in many breast surgery procedures. Ask your plastic surgeon for more information about the use of Strattice™ Tissue Matrix in conjunction with your breast surgery procedure.

Please review important patient information on the back of this brochure. Discuss potential risks and benefits of Strattice™ Tissue Matrix with your doctor.
Important Patient Information

This brochure is not intended to replace a discussion with your surgeon. It does not describe all the potential risks and benefits associated with Strattice™ Tissue Matrix.

Before use, physicians should review all risk information found in the Instructions for Use provided with each package of Strattice™ Tissue Matrix.

This product should not be used if you are allergic to porcine material or Polysorbate 20. Please consult with your surgeon to ensure Strattice™ Tissue Matrix is right for you.

All visuals in this brochure are for illustration purposes only. Results may vary.
